Together, We Can!

ABOUT OCEAN:

Introducing Ocean Ceramics, a pioneering venture in the realm of ceramic tiles, proudly established in 2024 on the vibrant landscape of Pakistan. With a vision to redefine elegance and functionality in architectural design, Ocean Ceramics embarks on a journey to deliver unparalleled quality and innovation to its esteemed clientele.

Drawing inspiration from the rich heritage of craftsmanship, Ocean Ceramics is committed to elevating the standards of tile manufacturing in Pakistan. Our extensive range of ceramic tiles encompasses a myriad of sizes and finishes meticulously crafted to cater to diverse aesthetic preferences and practical requirements.

Unlike conventional practices, Ocean Ceramics has invested in state-of-the-art manufacturing facilities strategically located within Pakistan's borders. Spanning over vast acres of land, our cutting-edge factory stands as a testament to our dedication to local production and economic empowerment.

Equipped with advanced SACMI machinery imported from Italy, Ocean Ceramics ensures precision engineering and superior quality control at every stage of production. Our relentless pursuit of excellence extends beyond operational efficiency to environmental sustainability, as evidenced by our adherence to stringent ISO standards including ISO 9001, ISO 14001, and ISO 45001 certifications.

Embracing innovation as our cornerstone, Ocean Ceramics has forged strategic partnerships with global leaders in ceramic technology such as TORRECID. This collaboration enables us to offer an extensive palette of colors, glazes, and additives, thereby unlocking endless possibilities for creative expression in architectural design.

At Ocean Ceramics, our commitment to excellence transcends mere production; it is ingrained in every tile we create and every relationship we nurture. With a steadfast focus on customer satisfaction and market responsiveness, we aspire to become the cornerstone of Pakistan's burgeoning ceramic tiles industry, setting new benchmarks of quality, reliability, and ingenuity along the way.

Our mission:

Our mission is to exceed our customers' expectations by going above and beyond. We believe in enhancing our grasp of quality and providing exceptional service and also becoming a leader in bringing cutting-edge technology to market and serving our consumers with exceptional design and a compelling value proposition, fueled by constant advancements in tile creativity, innovation, efficiency, and customer service.

Our vision:

We believe in the development of lifestyles and in being a globally innovative brand. We strive to set ourselves apart through the services and products we offer. We appreciate long-lasting values creation. We intend to increase our production capacity every year by boosting sales with our organized and scientific plans. We want RokaCeram to be a part of everyone's home.

OUR VALUES

SERVICES

Because all our work revolves around you

We undertake to introduce work methods that optimize the quality of our products, thus guaranteeing total customer satisfaction.

We undertake to assess and analyse your opinions so as to make ongoing improvements.

We undertake to do everything in our power to comply with the deadlines and commitments that we make with you.

OUR VALUES

QUALITY

Guaranteeing excellence

We undertake to select the finest raw materials and to use cutting-edge technologies so as to ensure truly excellent products.

We design and develop our products from the drawing board to production, thereby guaranteeing unique textures and patterns for each piece.

OUR VALUES

DESIGN

Because the difference is patently obvious

We undertake to offer you an endless variety of colours, relief patterns, textures and finishes, ensuring infinite alternatives.

We undertake to be creative, self-exacting, subtle, bold, inventive and idealistic in each and every one of the tiles that we design for you, searching latest trends and finest natural materials.

We undertake to suggest different ways of laying our products, helping you to design settings that are truly unique.

The logo consists of the letters 'O' and 'C' in a tall, thin, white, sans-serif font, positioned centrally on a dark blue background.

Together, We Can!

When Design meets Nature

Stone Mix: a project that blends two stone effects ideal for different architectural spaces.

"When Design meets Nature Stone Mix" embodies the harmonious fusion of contemporary design and the timeless beauty of nature's stones.

This innovative project seamlessly blends two distinct stone effects, each ideal for various architectural spaces, to create a truly captivating aesthetic experience.

By marrying the sleek sophistication of modern design with the organic allure of natural stone, this endeavor elevates interiors and exteriors alike to new heights of elegance and refinement. Whether adorning residential sanctuaries, commercial hubs, or public spaces, the Stone Mix project transcends boundaries, offering a versatile solution that enriches every environment it graces.

2 New technologies

CARVED TECHNOLOGY

Natural materials such as marble and stone are renowned for their intricate reliefs, evident in both texture and graphic representation. CarvedTechnology enhances this natural allure by meticulously synchronizing indented veins, resulting in tiles that exude the utmost realism, replicating the authentic depth and character found in nature's own creations.

CARVED technology intricately synchronizes indented veins, replicating the authentic depth and texture of natural materials like marble and stone.

Through meticulous precision, CARVED technology achieves unparalleled realism, elevating ceramic tiles to new heights of sophistication and aesthetic allure.

3D TECHNOLOGY

3D Technology offers a remarkable capability to emulate the weathered, aged appearance of stone or marble, mimicking the natural process of honing or wearing down over time to achieve a subtle matt finish. This innovative technique adds an authentic touch to ceramic tiles, capturing the timeless beauty and character of aged materials, enhancing the overall aesthetic appeal of interior spaces with unparalleled realism.

Unlocking dimensions beyond the flat, 3D technology crafts immersive experiences with unparalleled depth and realism.

From architectural marvels to artistic masterpieces, 3D technology breathes life into the digital realm, revolutionizing design possibilities.

“Elevate Your Space with Ceramic Tile Decor Design”

Ceramic tile decor design is a versatile and visually captivating way to enhance interior spaces. With an endless array of styles, patterns, and colors available, ceramic tiles offer a creative canvas for personal expression and design innovation. Whether adorning floors, walls, or even countertops, ceramic tile decor design adds texture, depth, and character to any room, transforming it into a unique and inviting space. From intricate mosaics to sleek geometric patterns, ceramic tile decor design allows for endless customization, making it a timeless and stylish choice for both residential and commercial settings. With its durability, ease of maintenance, and timeless appeal, ceramic tile decor design continues to be a popular and enduring option for enhancing the beauty and functionality of interior spaces.

Ceramic tile decor design offers an unparalleled opportunity to infuse your space with personality and style. From elegant mosaics to bold patterns, these versatile tiles serve as both a functional and aesthetic element in interior design. With an extensive array of colors, textures, and finishes to choose from, ceramic tile decor design allows for limitless creativity, enabling you to transform any room into a showcase of your unique taste and vision. Whether you're looking to add a touch of sophistication to a bathroom or make a statement in a kitchen, ceramic tile decor design is the perfect choice for creating a space that is both beautiful and functional.

MATT COLLECTION

When Design meets Nature

Stone Mix: a project that blends two stone effects ideal for different architectural spaces.

Matt texture ceramic tile designs offer a contemporary and understated aesthetic, characterized by a non-reflective surface that adds a sense of depth and sophistication to any space. These tiles are ideal for creating a sleek and modern ambiance, as they minimize glare and create a subtle yet impactful visual impact. With their smooth finish and tactile appeal, matt texture ceramic tiles are versatile and timeless, suitable for a wide range of interior design styles, from minimalist and industrial to Scandinavian and contemporary. They provide a sophisticated backdrop for both residential and commercial spaces, offering durability and ease of maintenance while elevating the overall aesthetic with their understated elegance.

300 X 600 MM

ZAMBEZI COLLECTION

The Zambezi Collection in ceramic tiles is a celebration of nature's raw beauty and untamed elegance. Inspired by the majestic Zambezi River, this collection offers a stunning array of tiles that reflect the river's dynamic flow and the rich landscapes it traverses.

The tiles feature a harmonious blend of earthy tones and natural patterns, evoking a sense of tranquility and connection to the outdoors.

With textures that mimic the natural contours and organic elements found in nature, the Zambezi Collection brings a unique depth and character to any space.

Perfect for both contemporary and traditional settings, these tiles add an element of timeless sophistication and natural warmth to your interiors, making them an ideal choice for those who appreciate the fusion of natural beauty and modern design.

Durable and versatile, the Zambezi Collection ensures that your space remains as captivating and enduring as the river that inspired it.

"Decor ceramic tile designs in sleek gray tones offer a modern and effortlessly blending with various decor styles to create a chic and timeless ambiance."

KAGERA COLLECTION

The KAGERA Collection in ceramic tiles is a captivating homage to the vibrant landscapes and rich cultural heritage of the Kagera region. These tiles are meticulously designed to capture the essence of this diverse and beautiful area, incorporating intricate patterns and bold textures that reflect the dynamic interplay of nature and tradition. The collection offers a unique blend of contemporary design and natural inspiration, making it a standout choice for those looking to infuse their spaces with both elegance and character.

The color palette of the KAGERA Collection features an array of earthy tones and vibrant accents, including deep browns, lush greens, and warm terracottas. These colors are inspired by the region's natural scenery, from its fertile valleys and verdant hills to its lively marketplaces and cultural artifacts. This thoughtful selection of hues creates a versatile range of design possibilities, allowing homeowners and designers to craft spaces that are both inviting and visually striking.

Crafted from premium ceramic materials, the KAGERA Collection tiles are designed for both beauty and durability. They are available in various finishes, including matte, glossy, and textured options, each offering a unique aesthetic appeal. The matte finish provides a subtle, understated elegance, while the glossy finish adds a layer of sophistication and light reflection. The textured finish, on the other hand, introduces a tactile dimension, perfect for creating feature walls or adding depth to floors and surfaces.

The versatility of the KAGERA Collection makes it suitable for a wide range of applications. Whether used to create an eye-catching backsplash in the kitchen, a luxurious bathroom setting, or a statement wall in the living room, these tiles enhance the aesthetic appeal of any space. Their robust construction also makes them ideal for high-traffic areas, ensuring that beauty and functionality go hand in hand.

OKAVANGO COLLECTION

The OKAVANGO Collection in ceramic tiles is a stunning tribute to the natural beauty and untamed wilderness of the Okavango Delta. These tiles capture the essence of this pristine landscape with intricate patterns and textures reminiscent of rippling waters, lush vegetation, and diverse flora and fauna. The designs are thoughtfully crafted to reflect the organic forms and natural motifs found in the Delta, bringing a touch of nature's artistry into your living spaces.

Featuring a rich palette of earthy hues, including shades of beige, brown, green, and blue, the OKAVANGO Collection brings the serene essence of nature into any room. These colors are carefully selected to mimic the natural surroundings of the Okavango Delta, from sandy riverbanks to verdant foliage and clear blue skies. The subtle variations in color and texture create a dynamic visual effect, adding depth and character to floors and walls, making them a versatile choice for various interior styles, from rustic and traditional to modern and minimalist.

Crafted from high-quality ceramic, the tiles in the OKAVANGO Collection are both durable and easy to maintain. They are available in both matte and glossy finishes, allowing you to choose the perfect look for your space. The matte finish offers a more subdued, natural appearance, while the glossy finish adds a touch of elegance and sophistication. This versatility makes the collection suitable for a wide range of applications, including feature walls, luxurious bathrooms, inviting kitchen backsplashes, and high-traffic areas such as hallways and living rooms.

In keeping with the theme of nature, the OKAVANGO Collection is produced with eco-friendly practices. The manufacturing process prioritizes sustainability, using recycled materials and minimizing environmental impact. This commitment to sustainability ensures that while you enhance your living space with beautiful, high-quality tiles, you are also making an environmentally responsible choice.

SHEBELLE COLLECTION

The SHEBELLE Collection by Ocean Ceramics draws inspiration from the enchanting beauty of the Shebelle River, encapsulating its serene and dynamic essence in each meticulously crafted tile. This collection showcases a harmonious blend of natural textures and contemporary design, offering a versatile solution for both residential and commercial spaces. Each tile in the SHEBELLE Collection is designed with precision, reflecting the intricate patterns and subtle color variations found in nature, providing a timeless and elegant aesthetic.

The SHEBELLE Collection features a refined palette of soft earth tones, cool grays, and warm neutrals, creating a versatile range that complements various interior styles. Whether enhancing a modern living room, a sophisticated kitchen, a luxurious bathroom, or an elegant commercial space, these tiles add a touch of natural charm and contemporary sophistication. The unique textures and hues of the SHEBELLE tiles bring depth and character to any setting, making them an ideal choice for those seeking to infuse their spaces with the tranquility and beauty of nature.

Beyond their visual appeal, the SHEBELLE tiles are engineered for durability and functionality. Crafted from high-quality materials, they are resistant to scratches, stains, and daily wear, ensuring their beauty and performance endure over time. Their easy-to-clean surfaces make them a practical choice for both residential and commercial applications, allowing for effortless maintenance and long-lasting elegance.

The SHEBELLE Collection by Ocean Ceramics invites you to experience the serene elegance of nature within your home. Transform your spaces with the timeless beauty and enduring quality of the SHEBELLE Collection, where each tile reflects the artistry and grandeur of the natural world.

Industry 4.0 system

Ocean is immersed in a process of digital transformation, which allows us better control our operations at production levels in our manufacturing premises. This has a direct impact on the improvement of our productive efficiency, as well as on the quality we offer to our customers.

Thanks to the implementation of several consulting actions within the frame of the Activa Industria 4.0 initiative, Ocean has set a roadmap for its digital transformation, which is reflected in a set of actions to be undertaken by the company in order to improve its own standards of digitalization and adapt to the necessities of the 4.0 industry.

Ocean also collaborates with the ITC Institute in the development of the TwinXdustry project, in which we are validating and defining a new methodology for the implementation of Digital Twins in manufacturing plants all around the industrial network of the Valencian Community.

The Digital Twin is a key element in the paradigm of the 4.0 Industry, and it is defined as a virtual black print of the manufacturing process, permanently updated as compared to the physical reality at the plant by means of a series of sensors and communication elements.

The digital twin has an array of simulation tools, which enables us to make predictions about the future behaviour of the real manufacturing process.

Eco Philosophy

In 2024, we proudly achieved the "Zero Waste" verification statement for our facilities. This remarkable recognition was awarded by SGS, confirming that we have made significant steps in sustainable practices. This is a true statement to our commitment to the environment and the planet.

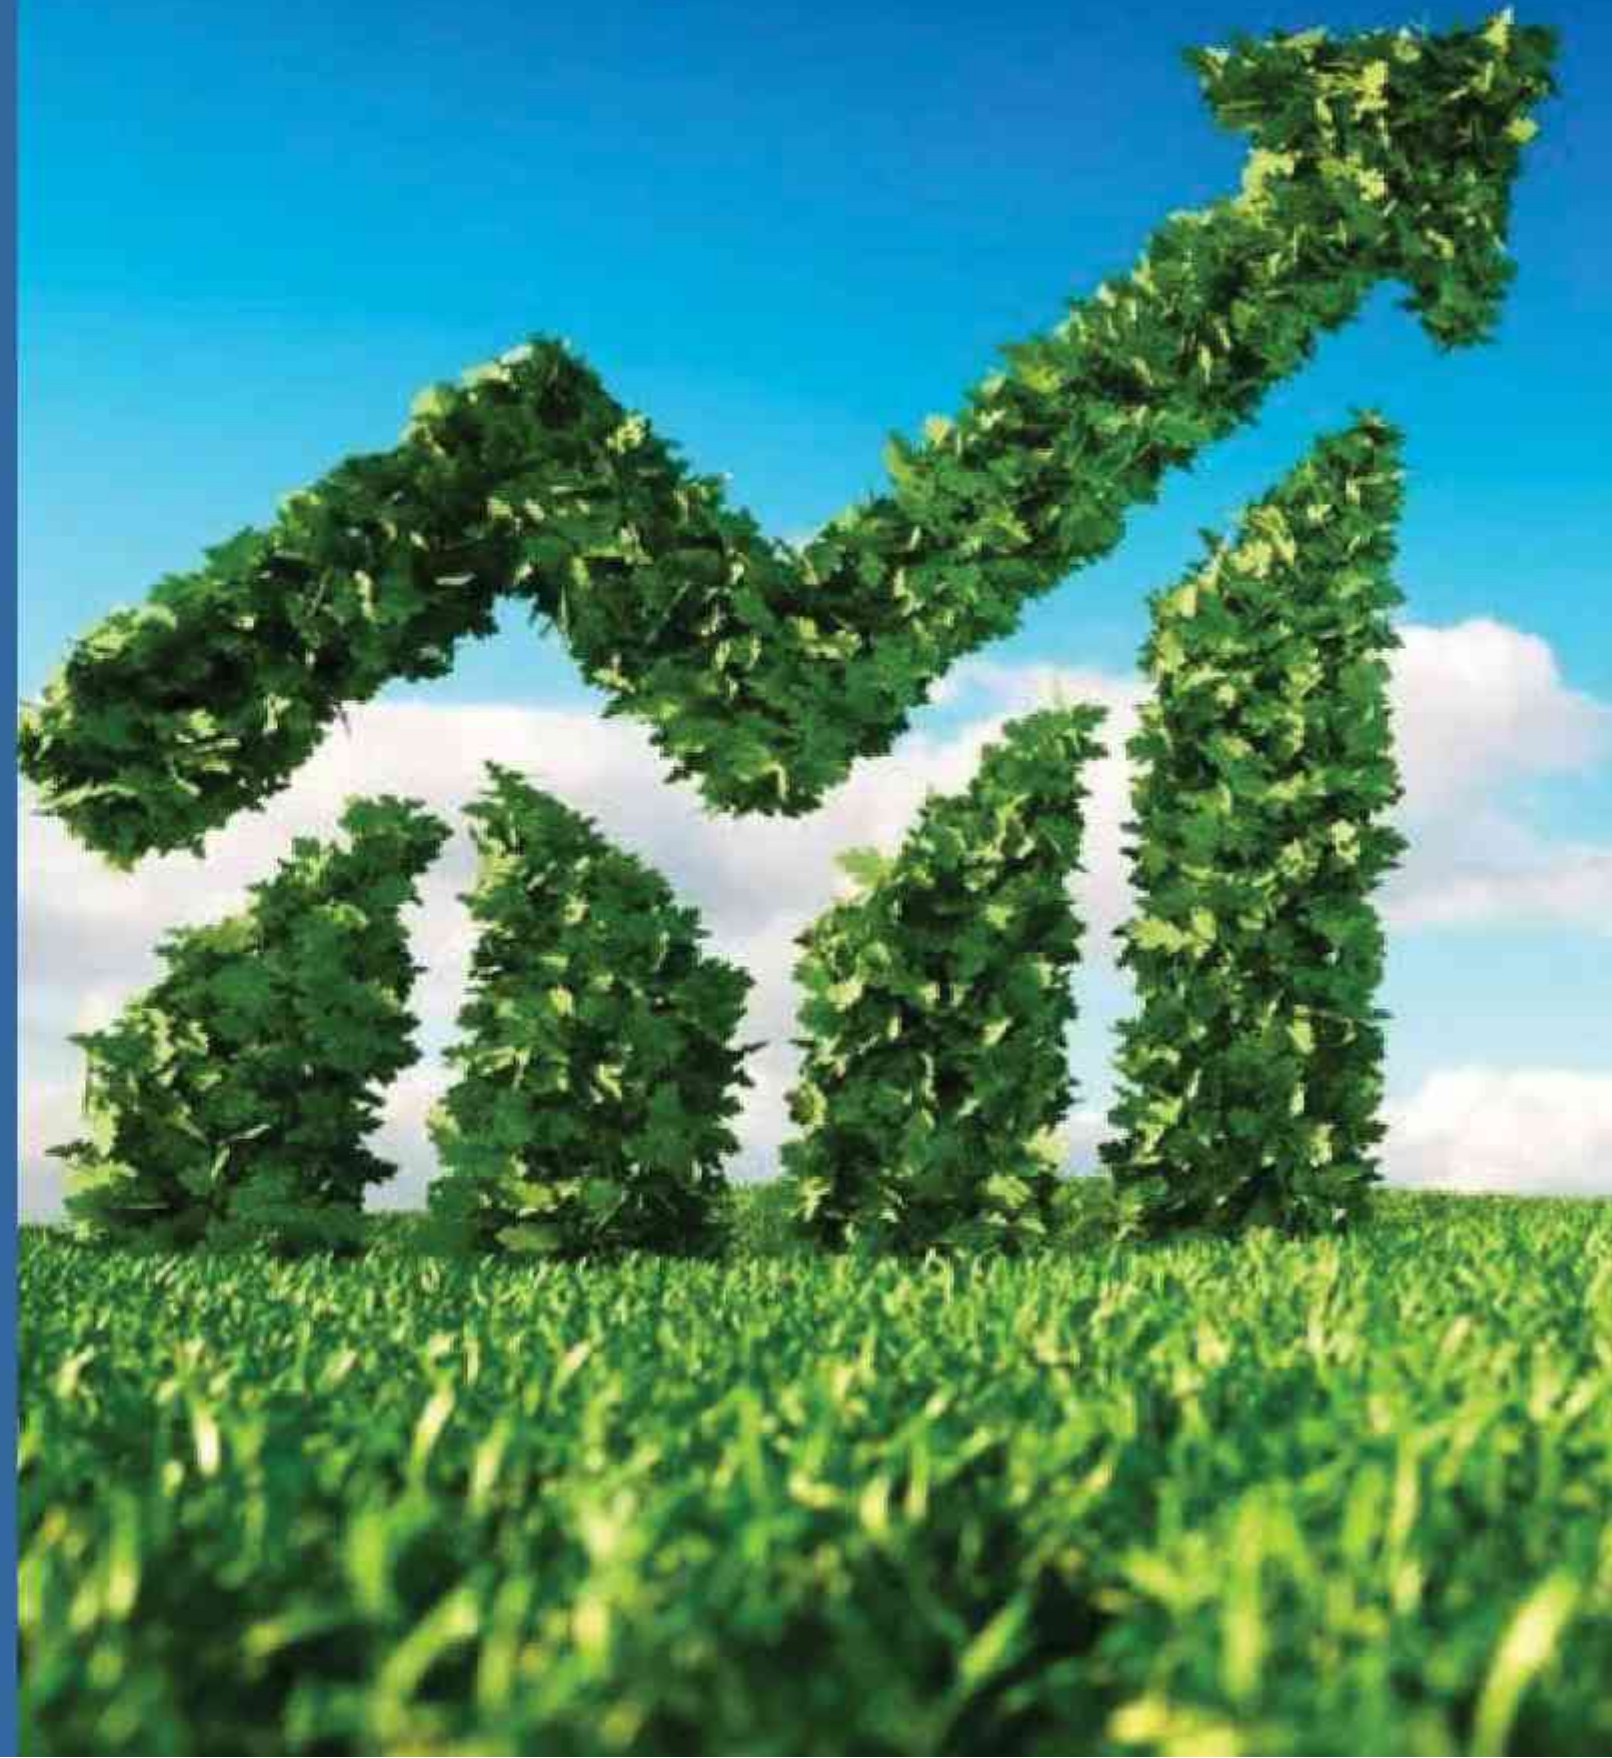

This "Zero Waste" environmental certification acknowledges our efforts to minimize waste and maximize resource efficiency. And it is a clear indication that more than 99% of the waste generated at all our facilities is recycled or carefully reused in our production processes. In addition, any surplus waste that cannot be used internally is responsibly handed over to accredited companies, ensuring that landfill disposal is avoided altogether. Furthermore, we have not restricted ourselves to waste management, but have also made great steps in manufacturing products that leave a much smaller footprint on the planet, successfully incorporating some recycled content in their raw materials.

In Ocean we are also known by constant investments in energy efficiency systems, applying the most advanced and efficient technologies, by having atmospheric emissions under control in order to minimize the environmental impact generated during our manufacturing process, by the zero discharge of the waste water generated, and by the quality and long life cycle of our product, and its low environmental impact.

Ocean's commitment to sustainability is perfectly summarized in our philosophy: increase value and reduce footprint. By making more valuable products, we have at the same time reduced our ecological footprint and laid one of the foundations of the circular economy.

Our forests, rivers, oceans and soils provide us with the food we eat, the air we breathe, the water we irrigate our crops with.

Together, We Can!

Symbology

The company Realonda S.A. reserves the right to cancel or modify, fully or partially, any of the models, colours, sizes, references and technical specifications found

within this catalogue, in order to improve the product to the benefit of the customer.

The information & details which appear in this catalogue were compiled up to its edition in September 2023.

Due to the printing processes, the colours of the individual images & settings which appear in this catalogue, are orientative & not always exact.

WALL

Wall tiles are specifically designed for vertical surfaces, such as walls in kitchens, bathrooms, and other living spaces, offering both functional protection and aesthetic appeal.

MATT

Matt surface tiles have a non-reflective finish, providing a subdued, natural appearance that is less prone to showing smudges or fingerprints.

RECTIFIED

Rectified tiles are precisely cut to ensure uniformity in size and shape, resulting in clean, straight edges for a seamless installation.

GLOSSY

Glossy tiles feature a shiny, reflective surface finish that adds brightness and depth to any space, making them a popular choice for bathrooms and kitchens.

GRIT

Grit effect tiles mimic the texture of natural materials such as stone or concrete, providing a tactile surface that adds depth and character to any space.

PUNCH

Punch effect tiles feature raised patterns or designs on their surface, adding visual interest and texture to any space.

REACTIVE

Reactive effect tiles undergo a chemical process during firing, resulting in unique variations and patterns on the surface.

MATT INK

Glossy tiles feature a shiny, reflective surface finish that adds brightness and depth to any space, making them a popular choice for bathrooms and kitchens.
