safer ecology and innovation bring to our customers  
**QUALITY, EFFICIENCY & SUSTAINABILITY**

# Introduction

Zilver has multifaceted solutions for the modern bathroom that includes versatile Faucets, Showers, Kitchen Sinks & Faucets, Accessories and Bathroom Fixtures etc. Availability of complete range of products and solutions for day to day living the bathroom in public and private places.

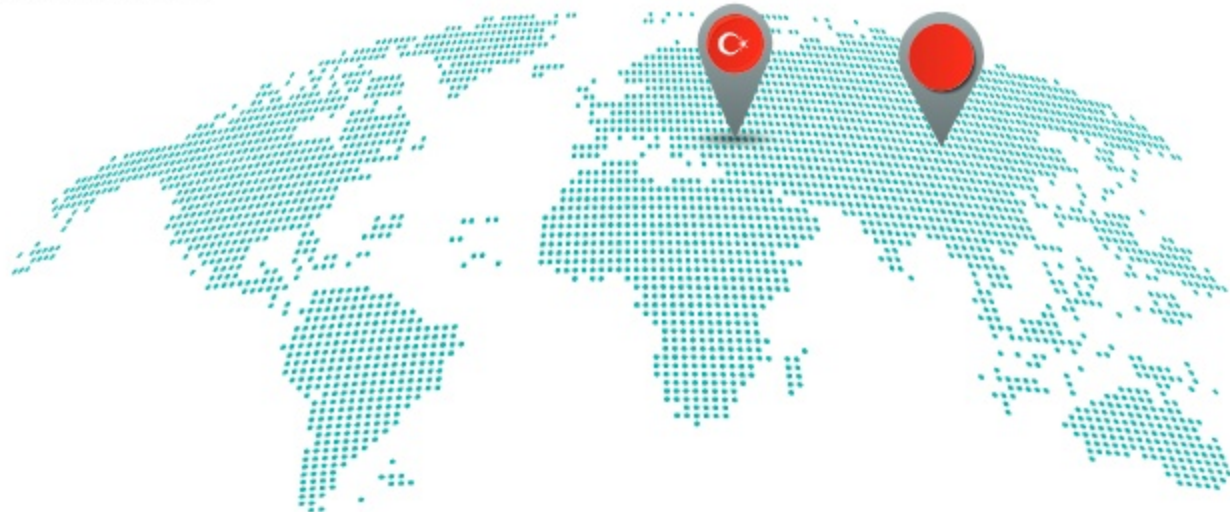

We have introduced a new concept of bathroom designs to reflect a sanctuary for relaxation.

The scope of Zilver sanitary ware variations appear virtually inexhaustible, covering bathrooms from the large to the small, from the casual to the elegant.

The Zilver organic shapes and modular options will transform any space into an artistic master-piece.

Quality as prerequisite for ZILVER, we strive to find state-of-the-art manufacturing facilities globally to ensure innovative and high standard products available for our customers.

The Zilver complete bathroom range offers vast options for bathroom experience. We offer a comprehensive product range for people who wish to design a first-rate, aesthetically appealing and functional bathroom to suit their individual tastes and lifestyles.

# Warranty

ZILVER<sup>®</sup>  
Concetti Italiani

Water Genius!

## THE HOMEOWNER'S GUIDE TO CARE AND MAINTENANCE FOR YOUR ZILVER FINISH

Zilver products all carry warranties against manufacturing defects.  
The factories that produce these products set the terms of these warranties.

### ZILVER PRODUCT WARRANTY

1 year on sensor tap & mixer  
1 year on manufacturer defects  
10 year limited warranty

### ZILVER'S PROMISE

Zilver will provide free of charge, at its options, replacement part(s) or product (or a comparable alternative product) to replace those which have proven defective in materials or workmanship.

Zilver will not assume liability for labor expended, freight cost or damages accruing from the use of the material purchased from us. If material is defective, the limit of damage is the price of the defective material. Proof of purchase (original sales receipt) from the original consumer purchaser must be made available to Zilver for all warranty claims. The warranty is not transferable and is extended solely to the original purchaser of the product.

### WARRANTY EXCLUSION

This warranty is for normal domestic use only and excludes defect or injury caused by or resulting from misuse, abuse, neglect, accidental damage, or improper installation. The 5 years limited warranty does not apply to the replacement of components where damage is caused by normal wear and tear. As a special note, avoid all cleaning products that contain ammonia, bleach, and alcohol. They may damage the finish. Additionally, outside installation accelerates finish wear. Any outside installation will void warranty.

### GENERAL DISCLAIMER

All warranties herein contained, including but not limited to any implied warranty of merchantability or fitness for a particular purpose are limited in duration to the applicable warranty period set forth above. Some countries do not allow limitations on how long an implied warranty lasts and some do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from country to country.

### COMMERCIAL WARRANTY

Zilver warrants its products installed in a commercial application to be free from manufacturing defects for a period of one (1) year from the date of acquisition by original owner.

### MAINTAINING THE EXPERIENCE OF AUTHENTIC LUXURY

The finishing touch of every Zilver Product is its exquisite surface that conveys the experience of authentic luxury through a distinctively soft, warm, genuine feel in comparison to other products.

# Cleaning & Maintenance Guide

## HOW SHOULD I CLEAN OR MAINTAIN THE FINISH ON MY FAUCET?

### WIPE

your faucet with a damp cloth & mild household cleanser.

### DRY

with a soft cloth to retain luster & shine.

### REMOVE

hard water stains with a 25/75 solution of white vinegar and water.

### RINSE

thoroughly with water afterward.

## AVOID USING STEEL WOOL, DETERGENT OR ACID SUBSTANCES

## HOW DO I REMOVE MINERAL DEPOSITS FROM THE AERATOR?

### UNSCREW

aerator and clean it with 50/50 solution of white vinegar & water solution.

### SOAK

the aerator in a 50/50 vinegar & water solution for several hours.

### FLUSH

the aerator with water.

### RUB

stubborn deposits with a toothbrush.

A man with a beard and dark hair, wearing a blue t-shirt and yellow rubber gloves, is focused on cleaning a modern chrome faucet. He is using a white cloth to wipe the spout of the faucet. The background shows a bathroom sink and tiled walls.

# Perfect Combination

ZILVER<sup>®</sup>  
Concetti Italiani

Water Genius!

## A PERFECT COMBINATION OF DIFFERENT MATERIALS FOR SUSTAINABLE QUALITY.

From which parts does a mixer consist? Excellent details, durable components, compatible hardware result in Zilver quality. High standard, long life combined Zilver mixers superior performance and long term performance thanks to the compatibility of all components and spare parts and durability. Carefully engineered, all parts complying with the standards.

### ERGONOMIC Handles

Zilver handles are produced of high quality zinc material. It provides ease of use with ergonomic forms that grip the hand.

### 100% BRASS Mixer spouts

From quality raw material produced long-lasting chic of the sink. Ergonomic and easy to use in forms and in different sizes for your to use the water comfortably.

### WATER SAVING Aerators

Aerators are critical parts that determine the overall performance of a mixers. In the aerators, the water flow is enriched with plenty of air. This ensures that the water is like a soft, non-splashing flow and full shower drops. These aerators allow you to save up to 50% from water gives with a softer flow with its ability to mix water with air.

### SS304 STAINLESS STEEL Flexible hoses

Basin and kitchen mixer come along with 100% tested leak proof stainless steel flexible hoses. They are durable and long lasting.

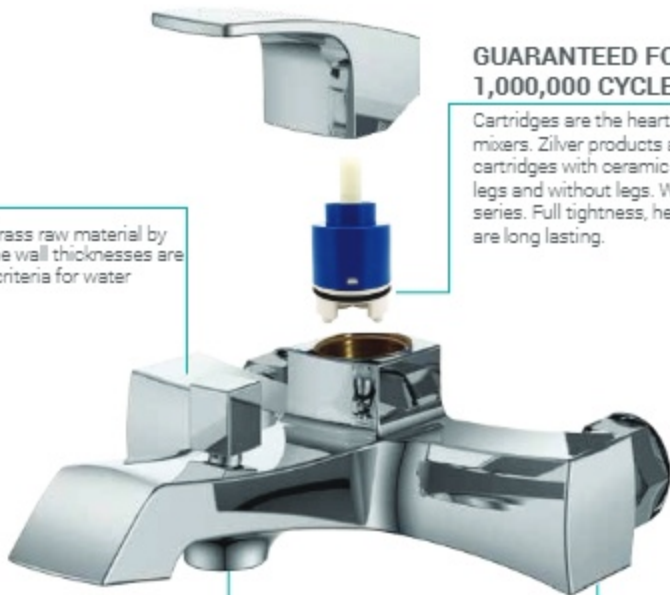

### 100% BRASS Body

It is produced from high grade brass raw material by technological casting system. The wall thicknesses are designed to meet performance criteria for water passages.

### EASY-OPERATED Bath mixer diverters

Compact diverters are used. Long life and performance guaranteed. When pulled up the pressure automatically switches to the crown position. Due to the locking system of the shower control unit in the bath and shower baths, the water flow from the handgrip is not affected by pressure fluctuations.

### GUARANTEED FOR MORE THAN 1,000,000 CYCLES Ceramic cartridges

Cartridges are the heart and most important working parts of mixers. Zilver products are made of long-lasting and quality cartridges with ceramic discs. It has also 35 mm, 40 mm, with legs and without legs. We also use special cartridges in some series. Full tightness, heat resistance, abrasion resistant, but all are long lasting.

### 100% BRASS Wall connection parts

Wall-connection eccentrics and raptors are produced from the first quality brass raw material.

# The Smart Choice

ZILVER<sup>®</sup>  
Concetti Italiani

Water Genius!

## THE SMART CHOICE OF PROFESSIONALS.

Excellent details, dynamic detail solutions, durable components, compatible hardware and Zilver quality. All high-standard, long-lasting components that combine the Zilver mixers together provide superior and long-term performance and durability through the interchangeability of spare parts.

### PLUMBER FRIENDLY

Zilver mixers are fitter-friendly thanks to its easy installation. The use and installation manuals are the preferred choice for master and craft instructors who are familiar with the business at all times in the training seminars with printed and visual information.

### THE GREAT ASSISTANT OF PROFESSIONALS OF HOME

The bathroom and kitchen in an innovative, efficient and elegant structure with housewives. Zilver products that enter your heart are the address of meeting water at home.

### STRONG BRAND AWARENESS

Zilver products are preferred by contractors and engineers on qualified projects with high brand awareness, extensive product choice and robust construction. Zilver products make a difference with both sales and aftersales service.

### WIDE RANGE FOR ARCHITECTS

New materials, new designs, new finishes, new details and new technologies to control water. Not only these features but also the product support services with wide product portfolio, ZILVER is becoming the choice of architects'.

# Quality Control

## ZILVOLOGY

The quality of Zilver is administrated according to the International Quality Standards. Achieved another milestone by acquiring ACS Certificate from EURO FINS. Our philosophy is aimed to achieve quality and can be represented as a cycle of quality which covers the totality of the proceedings starting from designing up to post-sales assistance. We mean tendence to quality as the whole cycle is not static but subject to changes to control from time to time towards quality. Our core values and commitment to conservation and sustainability are part of our existence and is at the heart of everything we do. We call this commitment Zilvology.

ZILVER<sup>®</sup>  
Concetti Italiani

Water Genius!

## PRODUCTION QUALITY

The quality during the production follows checking procedures adopted and modified several times according to the different needs occurred all along the previous years of steading development and improvement.

There is a regular, comprehensive and extensive inspection of assembly lines. All controls, inspections, equipment, fixtures, total production resources and skills are inspected to ensure that they consistently achieve the required quality levels.

A creative advertisement for the Zilver Violin Series faucet. The central focus is a large, detailed violin that appears to be playing, with its strings and body rendered in a vibrant orange-gold hue. From the strings, a stream of golden musical notes flows outwards, accompanied by numerous white birds in flight. The background is a dark, atmospheric scene of a symphony orchestra performing on a stage, with musicians and instruments visible in a soft, golden light. On the left side, a sleek, modern silver faucet is shown in profile, its spout pointing towards the violin. In the top right corner, there is a teal square containing the brand name 'ZILVER' in white, with 'Concetti Italiani' written below it. A dark grey banner at the bottom right of this square contains the slogan 'Water Genius!' in white text.

# Sensor Technology

ZILVER<sup>®</sup>  
Concetti Italiani

Water Genius!

## Advantages of sensor taps compared to traditional hand-operated taps

Zilver offers a range of different kinds of sensor taps so there's something that is suitable for every kind of washroom environment.

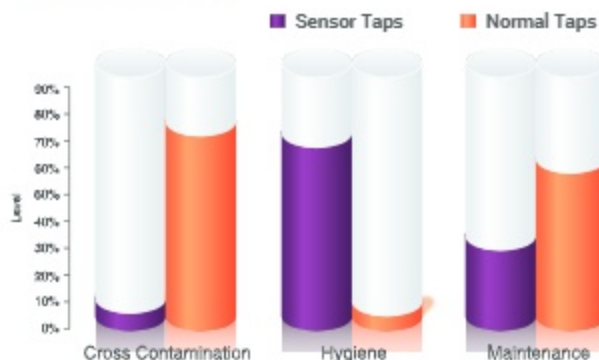

### ■ Sensor taps offer water savings

Traditional taps can use up to 10-15 litres of water per minute. In comparison, sensor taps offer flow rates of as little as 2 litres per minute, up to 70% less than traditional taps and Zilver sensor taps use around 60% less water than traditional taps.

### ■ Sensor taps are much more hygienic

Hygiene is one of the key benefits of sensor taps. The user is not required to actually touch the tap with their hands at any point during the hand-washing operation.

## Facts and Charts on Sensor Taps & Manual Taps

### ■ Sensor taps are cleaner and more efficient

The flow rate of sensor taps is predetermined whereas for traditional taps the user has to select their preferred flow rate every time. Pre-setting the flow rate also prevents user from selecting a flow rate that's too powerful, which helps to reduce splashing and means that the bathroom stays cleaner.

### ■ Customers increasingly expect to see sensor taps in public washrooms

As hands-free taps are installed in an ever-wider range of locations, customers increasingly expect them to be provided as part of a high quality washroom environment. Sensor taps are very intuitive to use and completely remove user-error problems like people leaving the taps running.
